

## SCHOOL FUNDRAISING

Encore Data Products is pleased to announce our "[Earn for your School](#)" fundraising program. We wanted to provide an alternative way for schools to acquire the much-needed audio/video products every classroom needs.

### Here is how it works:

1. Contact Encore Data Products and let us know you are interested in new products for your school!
2. We will work with you to pick a 2-week time period to run the fundraiser.
3. Encore will provide you with a PDF flier to send out to your students, parents, extended family, local businesses...any one you want to participate.
4. The flier will detail the promotion and provide a [code](#) to include on orders.
5. All orders received during the promotion that provide the [school's unique tracking code](#) will earn [5% in store credit](#) for the school to use on anything we sell.
6. At the end of the promotion we will contact the person in charge with a total dollar figure for the school shopping spree!

### Earning possibilities:

Your student families, neighbors and local businesses all use some of the products we offer:

- Laser printer toner
- Computer backup media for the office
- CD, DVD and Blu-ray recordable discs
- Hard drives
- Carts, flat panel TVs, medical media...the list includes over 2000 products.

### The fine print:

Shipping: Free ground shipping on all orders

Payment: Credit cards, prepay by check

Sales tax: Encore Data Products collects sales tax on orders shipping in Colorado only.

There is no door-to-door selling by the students or staff. The promo information can be distributed by email, print or both; that is up to the school.
